

XM Radio is a paid subscription service that is voluntarily utilized by millions of subscribers. It provides excellent programing in both variety and quality, and the introduction of local traffic and weather was a very positive addition to the offering. These channels provide instant valuable information to assist the subscribers in navigating metropolitan areas. To insist that this is unfair competition is absurd.

WE SUBSCRIBERS VOLUNTARILY PAY FOR THESE SERVICES, AND EXPECT THE VERY BEST IN VARIETY AND QUALITY!!

Thank you.
